

NFV Proof of Concept disclaimer

“This NFV Proof of Concept has been developed according to the ETSI NFV ISG Proof of Concept Framework. NFV Proofs of Concept are intended to demonstrate NFV as a viable technology. Results are fed back to the NFV Industry Specification Group.

Neither ETSI, its NFV Industry Specification Group, nor their members make any endorsement of any product or implementation claiming to demonstrate or conform to NFV. No verification or test has been performed by ETSI on any part of this NFV Proof of Concept.”

The above text shall appear on all documentation, printed or electronic, which describes an NFV PoC which has been accepted by the NFV ISG PER EG, such as reports, white papers, promotional literature etc. The two paragraphs above may be presented in different locations on such documentation.
